Collectif : Colombia and Ecuador Nelles Map (English, Spanish, French and German Edition) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Colombia and Ecuador Nelles Map (English, Spanish, French and German Edition):

1 of 1 people found the following review helpful. Decent By Gustave Good map. Lacks topo detail (but wasn't supposed to have this, so no complaint). Type is clear, scale adequate. Seems to lack small road detail, but is the best map of Colombia I've found. Perhaps one day I'll use the Ecuador side of the map. Paper seemed to be water-resistant, but only a little. 0 of 2 people found the following review helpful. Late delivery By Barbara It took one month to the day to receive this. I thought that I would have to go out and purchase another gift because it wouldn't arrive in time. :(

Featuring a new style cover and easy fold system, this map has been revised with the help of local correspondents. It is marked with tourist attractions and public transport systems, and includes inset maps of major cities. The scale of this map is 1:2.5 million and it includes the Galapagos Islands, plus city maps of Central Bogota, Central Medellin, Cartagena and Quito.
