1 of 1 people found the following review helpful. Ok content, but pages are falling outBy Louis K. EbyWill return this as pages are falling out after minimal use. Content is not bad; some pluses and minuses as compared to Lonely Planet. Footprint has more maps, but the legends are often on a different page.1 of 1 people found the following review helpful. Very BasicBy JennyIt was ok. Not great information on how to get to places. Ended up ordering the Lonely

Planet which has more detailed information as well as nice suggested itineraries. 0 of 0 people found the following review helpful. Recommended By SassGreat info! 2015 but NOT out of dated. Maps abound.
