Outdoor Books Maps : Colorado Biking Trails before purchasing it in order to gage whether or not it would be worth my time, and all praised Colorado Biking Trails:

2 of 2 people found the following review helpful. Okay, But Not Complete in My EyesBy Allamuchy JoeThe title lead me to believe this book would cover all of Colorado. While the book does have information about a lot of mountain bike rides in Colorado, it is concentrated around the front range and middle of the Rockies. there is little or no information about rides on the Western Slope or San Juans. Alos, a lot of the rides in the book are dirt/forest road type rides instead of singletrack.0 of 0 people found the following review helpful. Five StarsBy Kim R Langloisas expected
