National Geographic Maps : Colorado (National Geographic Guide Map) before purchasing it in order to gage whether or not it would be worth my time, and all praised Colorado (National Geographic Guide Map):

6 of 6 people found the following review helpful. Much smaller than expectedBy ShirazSunThis map is very small. While the two-sided object is about 18x21, the actual map of Colorado is about 10x13-1/2 (Colorado being a classic central US rectangle). In fact it is virtually identical size-wise to the Colorado map in my 2013 Rand McNally Road Atlas! (Which you might consider investing in as an economical alternative.) It is vinyl coated, so you might prefer it if you need to read maps in thunderstorms or underwater or whatever....0 of 0 people found the following review helpful.
