**Frederick John Lamp : Connecticut by Bicycle: Fifty Great Scenic Routes** before purchasing it in order to gage whether or not it would be worth my time, and all praised Connecticut by Bicycle: Fifty Great Scenic Routes:

0 of 0 people found the following review helpful. Good overview of bicycling in ConnecticutBy My Two CentsThis book provides bicycle routes across the entire state of Connecticut. Each route is accompanied by a detailed description of what the rider will see. The route itself is written on a separate page which is easily copied to bring along. This is a much better format than mixing information about sights with the description of where to turn. The routes are also accompanied by a map. One thing to keep in mind is that the routes in this book often used numbered state roads, which can be busy, when quieter backroads are frequently available as parallel routes. I know this because I have designed a number of rides myself in Connecticut, although I have no plans to write a book. Even if you never plan to ride a bicycle, this is a beautiful, coffee table book with lots of information about the Constitution State.1 of 1 people found the following review helpful. CAMBy CAMThis is a great book foe riding a bike in Connecticut. It

gives you a lot of different times of rides. From easy to difficult. I can not wait until spring to take some rides.0 of 0 people found the following review helpful. Connecticut bicyclingBy Kathleen DavisExcellent book! Beautiful photos and clearly drawn maps and cue sheets that can be copied to bring on the bike. A great variety of scenic rides, too!

This is the first full-color guide to the state of Connecticut by road bike for the moderate-level rider. It will also be useful to anyone looking for scenic routes throughout the state, although bicycle riding affords the luxury of a slower pace in the open air. With an introduction to riding and to the resources available, the book covers six diverse geographical regions of Connecticut in fifty rides. Each ride is represented by a four-page spread with color photographs of the sights, a narrative description, a map, and a concise cue sheet with directions and mileage. The rides focus on the rich historical sites; the enterprise of Connecticut's people; and the great natural resources of the Long Island Sound, Connecticut's rivers, lakes, creeks, and the hills of the Berkshires. Routes also take you through farms, picturesque small villages, city streets, forests, and bogs to view the flora and fauna of the state.

About the AuthorFrederick John Lamp is The Frances Benjamin Benenson Foundation Curator of African Art at the Yale University Art Gallery and member of the Sound Cyclists Bicycle Club, the Southern Connecticut Cycle Club, and Yankee Peddlers.
