I bought the palestinian, lebanese, syrian and MSA book by the same author just to compare - the books were so inexpensive that I was able to do that despite a limited budget. There are not a lot of colloquial books out there and for such an inexpensive price! This is the second language that I'm learning and I can tell you from experience that learning the language by phrases instead of rote memory of separate words is the best way to learn a language. Thank you!1 of 1 people found the following review helpful. i have been disappointed by their teaching methodsBy Chateau325Took several courses of Arabic in my university and learned 0, i have been disappointed by their teaching methods, the only positive aspect i gained from it was college credits towards fulfilling my foreign language requirement for my bachelor. Supposedly college courses are renowned for their efficient teaching of foreign language, that fact is garbage. After I graduated i was pissed off that I still couldn't speak Arabic, this book took me out of this predicament, its primary focus is conversations and fluency, rather than grammar and writing. When I clicked this listing I read the author biography, and realized I was able to relate to him on several levels in regards to the similar frustration he experienced to learn a language, and decided I give his method a shot. I was impressed by his method and i see this as a great book for anyone trying to learn Arabic. I love the fact how this author is so passionate about sharing his method with others. If schools were forced to follow this book everyone would be bi lingual.3 of 3 people found the following review helpful. Fantastic book. **THIS BOOK DOESN'T CONTAIN ANY ARABIC LETTERS! ALL ARABIC WORDS IN THIS BOOK WERE WRITTEN IN ENGLISH-TRANSLITERATION! IF YOU NEED EXTRA ASSISTANCE IN THE PRONUNCIATION THEN PLEASE PURCHASE THE AUDIBLE VERSION!** Have you always wanted to learn how to speak Classical Arabic but simply didnt have the time? Well if so, then, look no further. You can hold in your hands one of the most advanced and revolutionary method that was ever designed for quickly becoming conversational in a language. In creating this time-saving program, master linguist Yatir Nitzany spent years examining the twenty-seven most common languages in the world and distilling from them the three hundred and fifty words that are most likely to be used in real conversations. These three hundred and fifty words were chosen in such a way that they were structurally interrelated and, when combined, form sentences. Through various other discoveries about how real conversations workdiscoveries that are detailed further in this bookNitzany created the necessary tools for linking these words together in a specific way so that you may become rapidly and almost effortlessly conversantnow. If your desire is to learn complicated grammatical rules or to speak perfectly proper and precise Arabic, this book is not for you. However, if you need to actually hold a conversation while on a trip to an Arab speaking country, to impress that certain someone, or to be able to speak with your grandfather or grandmother as soon as possible, then the Nitzany Method is what you have been looking for. This book is recommended for those who already have some prior knowledge of the pronunciation of Arabic accents (such as the Arabic accents: ayin, ghayn, ha, and khaf). For those of you who do not, this book does indeed provide some great, in-depth techniques on the pronunciation and recognition of these accents, that you will encounter throughout the program. These techniques have proven extremely beneficial for beginner students who were previously unfamiliar with these accent pronunciations. But keep in mind this isnt a pronunciation book. This method is designed for fluency in a foreign language, while communicating in the first person present tense. Nitzany believes that whats most important is actually being able to understand and be understood by another human being right away. Therefore, unlike other courses, all words in this program are taught in English transliteration, without having to learn the complex alphabet. More formalized training in grammar rules, etc., can come later. This is one of the several, in a series of instructional language guides, the Nitzany Methods revolutionary approach is the only one in the world that uses its unique language technology to actually enable you to speak and understand native speakers in the shortest amount of time possible. No more depending on volumes of books of fundamental, beginner, intermediate, and advanced levels, all with hundreds of pages in order to learn a language. With *Conversational Arabic Quick and Easy*, all you need are fifty-three pages. Learn Arabic today, not tomorrow, and get started now!
