There are blogs online which teach Israeli arabic dialect, but i never knew someone actually wrote a book about this, This is the only book of its kind ever to be published.1 of 1 people found the following review helpful. Thank you!Fyi the magnificent cover is an illustration of the Sea of Galilee.

Note from the author: This book is very similar to my other title, *Conversational Arabic Quick and Easy: Palestinian Dialect*, so I recommend you either purchase one or the other, but not both. **THIS BOOK DOESN'T CONTAIN ANY ARABIC LETTERS! ALL ARABIC WORDS IN THIS BOOK WERE WRITTEN IN ENGLISH-TRANSLITERATION!** The State of Israel has two official languages, Hebrew and Arabic. Israels Arab minority consists of roughly 21 percent of its population, most of whom are fluent in the Hebrew language; however, all speak Arabic as well. The spoken Arabic of Israel is considered a Palestinian dialect, despite a few slight variations. Have you always wanted to learn how to speak the Arabic Dialect of the State of Israel but simply didnt have the time? Well if so, then, look no further. You can hold in your hands one of the most advanced and revolutionary method that was ever designed for quickly becoming conversational in a language. In creating this time-saving program, master linguist Yatir Nitzany spent years examining the twenty-seven most common languages in the world and distilling from them the three hundred and fifty words that are most likely to be used in real conversations. These three hundred and fifty words were chosen in such a way that they were structurally interrelated and, when combined, form sentences. Through various other discoveries about how real conversations workdiscoveries that are detailed further in this bookNitzany created the necessary tools for linking these words together in a specific way so that you may become rapidly and almost effortlessly conversantnow. If your desire is to learn complicated grammatical rules or to speak perfectly proper and precise Arabic, this book is not for you. However, if you need to actually hold a conversation while on a trip to the Holy Land, to impress that certain someone, or to be able to speak with your grandfather or grandmother as soon as possible, then the Nitzany Method is what you have been looking for. This book is recommended for those who already have some prior knowledge of the pronunciation of Arabic accents (such as the Arabic accents: ayin, ghayn, ha, and khaf). For those of you who do not, this book does indeed provide some great, in-depth techniques on the pronunciation and recognition of these accents, that you will encounter throughout the program. These techniques have proven extremely beneficial for beginner students who were previously unfamiliar with these accent pronunciations. But keep in mind this isnt a pronunciation book. This method is designed for fluency in a foreign language, while communicating in the first person present tense. Nitzany believes that whats most important is actually being able to understand and be understood by another human being right away. Therefore, unlike other courses, all words in this program are taught in English transliteration, without having to learn the complex alphabet. More formalized training in grammar rules, etc., can come later. This is one of the several, in a series of instructional language guides, the Nitzany Methods revolutionary approach is the only one in the world that uses its unique language technology to actually enable you to speak and understand native speakers in the shortest amount of time possible. No more depending on volumes of books of fundamental, beginner, intermediate, and advanced levels, all with hundreds of pages in order to learn a language. With *Conversational Arabic Quick and Easy*, all you need are fifty-three pages. Learn Arabic today, not tomorrow, and get started now!

About the AuthorFor many years I struggled to learn Spanish, and still knew no more than about 20 words and consequently was extremely frustrated. One day I stumbled upon this method as I was laying around with word combinations. Suddenly I came to the realization that every language has a certain core group of words that are most commonly used in a language, and simply by learning them, one could gain ability to engage in fluent communication. I discovered which those words were, narrowed them down to 350, and that once memorized, one could then connect and create one's own sentences. **THE VARIATIONS WERE and ARE, INFINITE!!!** By using this incredibly simple technique I could converse at a proficient level and speak Spanish. Within a week I astonished my Spanish speaking friends with my new found ability. The next semester I registered at my university for a Spanish Speaking Course and I applied the same principles I learned in that class (grammar, additional vocabulary, future and past tense, etc.) to those 350 words I already had memorized and immediately I felt as if I had grown wings and learned how to fly. At the end of the semester we took a class trip to San Jos, Costa Rica. I was like a fish in water, while the rest of my classmates were floundering and still struggling to converse. Throughout the following months I again applied the same principle to other languages, French, Portuguese, Italian, and Arabic all of which I now speak proficiently thanks to this very simple technique. This method is by far the fastest way to master fluent conversation. There is no other technique that compares to my concept. It is effective, it worked for me and it will work for you. Be consistent with my program and you too will succeed the way I and many, many others have.
