Ordnance Survey : Cornwall (OS Travel Map - Tour Map) Tour 1 1:100K before purchasing it in order to gauge whether or not it would be worth my time, and all praised Cornwall (OS Travel Map - Tour Map) Tour 1 1:100K:

1 of 1 people found the following review helpful. Could use more detail considering it's size
By Music Maven
This is a very large map for a relatively small region of England. That said, you would expect to find all places of interest shown on it that you might want to visit. But indeed, there is quite a lot of empty space on this map. Perhaps they were intending that you would have more room to write your own notes on it.
On the other hand, the map of Central Southern England by AA Publishing is incredibly detailed and there's barely enough room to write anything on, but then you wouldn't need to.
0 of 0 people found the following review helpful. Thanks! Got me all around Cornwall!

Thanks! Got me all around Cornwall!
1 of 2 people found the following review helpful. Don't be in a hurry to get this map.
By ButterflyGuy
This company is theoretically one of the few that ships this map from the United States. I did see similar maps, but they were sent from the UK. I ordered this map with the thinking that it would get here sooner than one from the UK. Then - I'm wondering why it's taking more than a week to receive the map. They said it shipped April 25th and today, May 2nd, it's still not here. If you put it in an envelope it normally will arrive in two to three days. They say they are in Indiana. Indiana to Missouri is not that far. I'm just warning people to have at least two or more weeks from ordering this map to actually receive it. There is no tracking for this item so there's no way to know what's going on. I'm disappointed.

The British Ordnance Survey Publishing House will help you to discover Cornwall with this road map. The best way to prepare your trip and your itinerary, and to travel independently

About the Author
Ordnance Survey is Britain's national mapping agency, responsible for the official, definitive mapping of the whole country. They produce and market a wide range of maps for educational and leisure purposes, as well as producing computer data products for government, business and administrative use.
