Some towns have multiple bus stops and not all have signage. There may be a full on bus depot in the center of town and another is just a spot along the road in front of some store (in the same town) and another in a separate depot. Ask questions and look for lines of people waiting for something and then ask one of them. The good thing is that most all Ticos are very friendly. Don't take large bags on a bus, even a large backpack is problematic. You may be standing for 3-4 hours on a busy line on a busy day, usually not but I have and if you have a large pack you won't be happy and neither will the others around you. Enjoy your trip it is a great way to get around and meet people.4 of 4 people found the following review helpful. Excellent detailBy DTSeattleCosta Rica by bus covers in remarkable detail the public transportation connections in and out of San Jose, plus practical info about travel all around Costa Rica.7 of 7 people found the following review helpful. Budget Travelers to Costa Rica Rejoice!By Eugene W. Geniesse III My wife and I have visited Costa Rica several times over the last 18 years and we have seen a movement in the direction of "up-scale" in lodging, in activities for

visitors, and, of course, costs. This guide, written by a retired person living in Costa Rica, is exactly what the low budget traveler needs. It is not a guide to 5-star hotels but rather a guide for students, retired folks, and anyone else interested in an authentic Costa Rica vacation without breaking the bank. The author's knowledge about the bus system is a real plus!
