Peter Hutchison : Costa Rica (Footprint Focus) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Costa Rica (Footprint Focus):

If you are looking for evidence for the belief that size is not everything then Costa Rica should be your first port of call. What Costa Rica lacks in size, it more than makes up for in wildlife, scenery and adventure. Visit Costa Rica and you'll experience a tropical paradise of jungles and lagoons, thermal pools and Caribbean beaches; a land where hummingbirds congregate to drink nectar and sacred quetzal birds hide in treetops. Footprintfocus Costa Rica is brimming with information on adventure activities from diving to trekking, eco-friendly options for accommodation and comprehensive listings of where to eat, sleep and drink. Essentials section with tips on getting there and around. Includes fascinating insights into the history and culture of the country. Comprehensive listings of where to eat sleep, plus information on festivals and activities. Detailed street maps for San Jos and other important towns and cities. Slim enough to fit in your pocket. Loaded with advice and information, this concise Footprintfocus guide will help you get the most out of Costa Rica without weighing you down. The content of the Footprintfocus Costa Rica guide has been extracted from Footprints Central America Mexico Handbook.

About the Author Peter first travelled through Central and South America between 1993 and 1995 after gaining a degree in Development Studies, specializing in Latin American Studies, from Reading University. During his travels he used both versions of The Bible Footprints Central and South American Handbooks to guide his path, taking time to stop for almost two years to work on The Bolivian Times in La Paz. Since then regular trips to Latin America, travelling popular routes and journeying roads less travelled, have kept the passion alive.
