National Geographic Maps - Reference : Costa Rica [Tubed] (National Geographic Reference Map) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Costa Rica [Tubed] (National Geographic Reference Map):

0 of 0 people found the following review helpful. Five Stars By Fox family Love this map, high quality and great details, 3 of 3 people found the following review helpful. Very nice map By Christine I purchased this map for my wall, and for the most part it's exactly what I wanted: large, clearly labeled, well detailed. My only complaint (and honestly, if I'd looked more closely at the picture, I would have realized this) is that it doesn't include Isla de Coco, an important feature of the country. For a map of this caliber and price, I would want it to showcase the entire country. 2 of 2 people found the following review helpful. What has the world come to. By Chen Y. I live in Costa Rica, Curridabat. Yeah, I know...lol I was just too lazy to go shopping for a map. Besides I didn't find it in the shopping mall, and I can tell you this map is great if you need something general. I use it to point out our clients routes.

National Geographic's map of Costa Rica can be an attractive and functional addition to any room. This comprehensive wall map shows the country in its entirety, including many islands, bordering areas in Panama and Nicaragua, and its stunning Pacific Ocean and Caribbean Sea coastlines. Beautiful shaded relief and vibrant colors depict both topographic and bathymetric features such as mountain ranges, volcanoes, wetlands and coral reefs. Major infrastructure networks, including roads, highways, airports and ferry routes are also clearly labeled. User-friendly indexes list selected towns along with the country's abundant protected areas, such as National Wildlife Refuges and Parks, wetlands and nature reserves. The map is packaged in a two inch diameter clear plastic tube. The tube has a

decorative label showing a thumbnail of the map with dimensions and other pertinent information. Map Scale = 1:441,362 Sheet Size = 38" x 36"

About the Author Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
