National Geographic Maps - Trails Illustrated : Crater Lake National Park (National Geographic Trails Illustrated Map) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Crater Lake National Park (National Geographic Trails Illustrated Map):

1 of 1 people found the following review helpful. Exploring Crater Lake...By HMS WarspiteThis trail map of Crater Lake National Park in Oregon offers two depictions of the popular tourist and hiking destination. One side of the map is a 1:62,500 scale color presentation of the entire park, with contour intervals, the road network, and the established trails, including the Pacific Crest trail that runs through the park. The other side of the map has a shaded graphic presentation, at an oblique angle, of the park, along with some geologic history and general information about the park. The map sheet is plasticized for water and tear resistance, and folds up to a convenient size. It is highly recommended for exploring and hiking at Crater Lake. There are some decent opportunities to walk and hike in and around the lake; beware the 7,000 foot altitude around the rim, which may be a challenge for folks coming from sea level.1 of 1 people found the following review helpful. This map proved to be very useful as the National Park was out of their park ...By chris ramsayThis map proved to be very useful as the National Park was out of their park maps and provided a "rag" newspaper that had lot's of current events like ranger talks, special events, etc... which were very helpful to know-- but the map included in the paper was not nearly as useful as this large format map (easy on my old eyes !). This map paired with the book by William L. Sullivan, "Trails of Crater Lake National Park", was a perfect combination for my multiple day visit to the park.0 of 0 people found the following review helpful. Five StarsBy Albert SilviaGood detailed map

Waterproof Tear-Resistant Topographic MapThe remnant of a volcano and known for its remarkably blue water, Crater Lake is the deepest lake in the United States. National Geographic's Trails Illustrated map of Crater Lake National Park is designed to meet the needs of outdoor enthusiasts by combining valuable information with unmatched detail of Oregon's only national park. Created in partnership with local land management agencies, this expertly researched map provides a variety of useful information to help you get the most from your visit, including summaries of featured summer hikes and cross-country ski trails. Additional maps highlighting winter recreation at both Crater Lake and Diamond Lake, and extensive information on the park, the caldera, weather, Rim Drive, and the Pacific Crest National Scenic Trail is included as well. Trail mileage between intersections and use designations will help you choose the path that's right for you. The Rogue Umpqua and Volcano Legacy scenic byways are noted for those wishing to take in the scenery by car. Many recreation features are noted as well, including campgrounds, trailheads, boat ramps, horse camps, fishing and swimming areas, boat tours, and scenic viewpoints. The map base includes contour lines and elevations for summits and lakes. Every Trails Illustrated map is printed on "Backcountry Tough" waterproof, tear-resistant paper. A full UTM grid is printed on the map to aid with GPS navigation. Other features found on this map include: Crater Lake, Diamond Lake, Mount Bailey, Mount Mazama, Mount Thielsen, Mount Thielsen Wilderness, Rogue River National Forest, Sky Lakes Wilderness, Umpqua National Forest, Winema National Forest. Map Scale = 1:55,000 Sheet Size = 25.5" x 37.75" Folded Size = 4.25" x 9.25"

About the AuthorFounded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
