If you are going to this amazing area - take this map!0 of 0 people found the following review helpful. hard to read, but it worksBy JonnathanIt's nice how detailed it is, with so many trails, but it's difficult to read because there is so much stuff on it. The more you look at it, the easier it gets. Amazing how many hidden lakes and trails there are that you would not know about without this map. Pretty cool I guess, it just takes a while to get used to it. I bought three different ones, and I'm putting the same review on all of them.0 of 0 people found the following review helpful.
