It was hard to find a good map, but I was so glad that I had ordered this map in advance, because it was the best and only good driving map that we found on the whole trip! If you're going to be driving in Croatia and/or Slovenia, this is the best map for you. It clearly labels all the roads, cities, towns, mountains, etc., and between this great map and the excellent signage on the roads in both countries, driving was very easy. 2 of 2 people found the following review helpful. Map of Croatia is pretty small and lacks insets of cities By Dan P. Map of Croatia is pretty small and lacks insets of cities. The Slovenia map is much bigger though and does have a couple insets with city views. 4 of 4 people found the following review helpful. Details!!
