in fine, artistic prose mixed with a keen knowledge and observation of nature? This man is a wonderful writer who will make you feel and learn. Crossing Open Ground is an easy and fast read great for a weekend away from winter's dark days, a warm bath, a wait at an airport...OK, anywhere at any time. If you have never read any Lopez start now; you will not be disappointed. If you have read him but wonder about this book... I have read three of his others and this one stands with them all.
