Palomar S.r.l. : Crumpled City Map-Chicago (Crumpled City Maps) before purchasing it in order to gage whether or not it would be worth my time, and all praised Crumpled City Map-Chicago (Crumpled City Maps):

0 of 0 people found the following review helpful. Nice MapBy AlysonThe box it arrived in was squished, but the map inside was perfect. It's a good size and the fabric (paper?) is well made. It's just what I wanted!7 of 7 people found the following review helpful. Ok, but the city is strangely orientedBy LAHGood: it's neat that it crumples easily and gets soft. Fits well in the bag (included) either folded or crumpled.Weird: Chicago is a very north/south city. This map orients so that the heart of the city - the loop - is on the shortest side. Therefore, the map mostly shows the deep west central side. The north/south points cut off before you get to major landmarks like Wrigley Field (north), The Museum

of Science and Industry (south), and U.S. Cellular Field (south). The furthest west point of interest I can think of is the Garfield Park Conservatory, and there's still a good five inches of west side visible on the map past it...all the way to Cicero Ave! Therefore, the map is only really good if you need it for the Loop and west sides. All in all, neat concept, not sure of its true usefulness as a map, especially for a tourist or temporary resident. Keeping for the novelty alone.

The Crumpled City Map is easy to read, has a contemporary design and is perfect for world travelers exploring a new city! Each foldable map provides details about a large part of the city, including streets, monuments, museums, art galleries and much more. Unless you have a satellite phone when you travel overseas, your cell phone GPS won't work! How do you find your way around without using one of those old paper maps that are hard to fold and are ruined as soon as you get a little wet? Try this foldable city map instead! Whether you're an urban nomad backpacking through Europe or a conservative businessman mapping out an unfamiliar city, the Crumpled City Map is the perfect accessory for your travels. Just pull it out of its drawstring pouch, map out your route and stuff it back in your pocket. It's convenient, compact, and unlike the GPS on your phone, never needs a charge to tell you where you are. Each Crumpled City map weighs less than one ounce and is 100% waterproof.
