0 of 0 people found the following review helpful. Great map to help navigate LondonBy Jen O.The map is quite large so it is easy to find where you want to go and close tube stations. Main attractions like Buckingham Palace and the British Museum are clearly marked.0 of 0 people found the following review helpful. Five StarsBy hurleygirlylightweight and handy2 of 2 people found the following review helpful. super lightweight and folds very smallBy christinajust got this today, but our holiday to london is still in the future, so i cannot speak to specific elements of the accuracy, etc.BUT - i will tell you that it's on VERY lightweight and thin material (sort of like paper, sort of like plastic), and folds quite small so it will be very easy to stuff in a pocket or purse, and not take up a lot of room. i like that the tube stations stand out well.now, i just need to get there and use it. can't wait!

The Crumpled City Map is easy to read, has a contemporary design and is perfect for world travelers exploring a new city! Each foldable map provides details about a large part of the city, including streets, monuments, museums, art galleries and much more. Unless you have a satellite phone when you travel overseas, your cell phone GPS won't work! How do you find your way around without using one of those old paper maps that are hard to fold and are ruined as soon as you get a little wet? Try this foldable city map instead! Whether you're an urban nomad backpacking through Europe or a conservative businessman mapping out an unfamiliar city, the Crumpled City Map is the perfect accessory for your travels. Just pull it out of its drawstring pouch, map out your route and stuff it back in your pocket. It's convenient, compact, and unlike the GPS on your phone, never needs a charge to tell you where you are. Each Crumpled City map weighs less than one ounce and is 100% waterproof.
