After our trip I framed it and added 4x4" photos of us pasted onto the area on the map where the photo was taken. It looks great and I've gotten many compliments! I have bought another city for upcoming trip this year!0 of 0 people found the following review helpful. Four StarsBy TerryThis is a cool gift for anyone non-OCD who is heading for New York.

The Crumpled City Map is easy to read, has a contemporary design and is perfect for world travelers exploring a new city! Each foldable map provides details about a large part of the city, including streets, monuments, museums, art galleries and much more. Unless you have a satellite phone when you travel overseas, your cell phone GPS won't work! How do you find your way around without using one of those old paper maps that are hard to fold and are ruined as soon as you get a little wet? Try this foldable city map instead! Whether you're an urban nomad backpacking through Europe or a conservative businessman mapping out an unfamiliar city, the Crumpled City Map is the perfect accessory for your travels. Just pull it out of its drawstring pouch, map out your route and stuff it back in your pocket. It's convenient, compact, and unlike the GPS on your phone, never needs a charge to tell you where you are. Each Crumpled City map weighs less than one ounce and is 100% waterproof.
