As you would have to figure out which streets you are between if you where on a smaller street. It does crumple up very well but its hard to pull apart. It is a good backup map as it wouldn't get wet or rip though. Will be looking for a better map.0 of 0 people found the following review helpful. What an awesome map! Made of that Tyvek stuffBy AKBeeWhat an awesome map! Made of that Tyvek stuff, so totally lightweight, crumpable, and could even double as a cover if it rains while you're trying to find the Colosseum! :)0 of 0 people found the following review helpful. Kinda strangeBy CustomerGood map, not hugely detailed, and kinda looks like tissue. Just down load a map to your phone instead of paying 16 for tissue paper.
