**James Kavanagh, Waterford Press : Cuba Birds: A Folding Pocket Guide to Familiar Species (A Pocket Naturalist Guide)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Cuba Birds: A Folding Pocket Guide to Familiar Species (A Pocket Naturalist Guide):

0 of 0 people found the following review helpful. Helpful Pocket GuideBy Robin BrownfieldThis was a very handy guide to bring with me on my trip to Cuba - more useful than most of the bird books, which weigh heavily in your bags in a country where you have to do a lot of walking. While I could have used this better if it also folded in half the other way (to fit in a small fanny pack), it was a convenient guide to pull out for quick identification.3 of 3 people found the following review helpful. perfect when traveling lightBy GloriaIt's a flat, laminated pamphlet, showing most of the birds of Cuba.Perfect for my needs while biking there.It was great to be able to ID almost every bird we saw.4 of 4 people found the following review helpful. Birds for non-birdersBy RandiUseful when you don't want to carry your Garrido and Kirkconnell. Nice pictures and well categorized without words.

One of the world's top birding destinations, this Caribbean island is home to 354 recorded species including 21 endemics; the charming Cuban tody, the elegant Cuban trogon and the world's smallest bird, the bee hummingbird. This beautifully illustrated guide highlights over 140 familiar and unique species and includes an ecoregion map featuring prominent bird-viewing areas. Laminated for durability, this lightweight, pocket-sized folding guide is an excellent source of portable information and ideal for field use by visitors and residents alike.

About the AuthorZoologist Jim Kavanagh has made a career out of introducing novices to plants, animals, the sciences and world cultures. In addition to creating over 500 simplified nature guides, he has also authored guides to languages, cities and outdoor skills. An avid traveler and backpacker, Kavanagh's path has taken him around the world to many remote destinations including the upper , Africa, Australia, and the Arctic Circle (and this is just the As). He is also the author of a series of state-specific guides to common species and natural attractions and a children's book on evolution.With 650+ titles in print and 6.5 million copies sold, Waterford Press publishes the largest line of folding-format reference guides in the industry. Our mission is to connect people to the natural world by making knowledge about wildlife identification, outdoor recreation, travel, and safety and survival skills accessible to a wide audience.
