There was little to no organization in the book... some of the recommendations didn't specify what city they were in.

This is not a book. It is a list of 101 basic tourist stops in Cuba printed out and stapled together. There is no organization to the list so destinations for multiple cities are mixed in together with no rhyme or reason. It is also too large to be a handy pocket guide. Also, there are no maps or pictures of the destinations. This is all around useless. I left mine in a trashcan in Trinidad.
