**From Mairs Geographischer Verlag, Kurt Mair : Cuba GeoCenter World Map** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Cuba GeoCenter World Map:

Part of the renowned Geocenter World Map series, this updated map of Cuba is both informative and easy-to-use. This cartography is ideal for route-planning and travelling within the country and its city plans of Havana, Santiago de Cuba, Cienfuegos, Camaguey, Varadero and Playas del Este are ideal for day-to-day travelling. This updated cartography now features grid references in the margin to aid quicker orientation. Additional colour changes to the mapping make transport networks clearer than before. With a scale of 1:1 Million and a legend in 8 languages, this is a comprehensive and indispensable road map. Tourist information, places of interest and a comprehensive index booklet are all featured.
