Michael Segedy : Cupiditas: Evil's Root: Political thriller romance set in South America before purchasing it in order to gage whether or not it would be worth my time, and all praised Cupiditas: Evil's Root: Political thriller romance set in South America:

0 of 0 people found the following review helpful. Now Is The Time To Pull Our Heads From The SandBy Susan KlopferNow is the time for all good men to come to the aid of their country. If you're old enough to have taken typing classes in high school, you might remember this sentence. It came to mind as I finished reading Michael Segedy's Cupiditas: Evil's Root. This author, a teacher and poet, is trying to deliver a critical message via fiction: we have to realize the intelligence community is out of control. He uses a real false flag event taking place in South America as the basis to deliver his message--the real murder of the two Peruvian journalists. As I read Cupiditas I regularly consulted online sources, finding matching reports, and all that I could do was shake my head. In a time when our own CIA clandestine service brags online that it serves its "customers" (not its country), this only reinforces the message of a captivating book written by a teacher who is telling us to pull our heads from the sand, before it is too late. Now is the time for ...1 of 1 people found the following review helpful. Intrigue and Mystery all the way throughBy MaryEvil's Root Compilation (Books 1 2) are page turners from start to finish. (In Deep (1) and Cupiditas (2)), are also available as one book. A real intrigue!! Not only is the story line exciting and believable, it is educational too about Peru, its people, history and geography. It sheds light on the dark period of the Shining Light and military without feeling you are at a history seminar. Steve Collins is a believable character and one you at, one moment feel endeared to, then the next are frustrated at - but in a good way as it makes you feel involved as a reader. His love interest Jennifer is also an integral part of the story as is the grandfatherly General whom you find you root for!! I highly recommend these books.....like the Millenium series you must read both books to fully appreciate the complete exciting story to it's shocking end!! Enjoy.

Cupiditas: Evil's Root is set in South America. Like the author's political thriller In Deep, it is full of twists and turns, romance and adventure, with dark underpinnings that show how powerful, ruthless political and corporate structures cast shadows over the lives of all of us. In this exciting mystery, you'll meet fascinating characters you'll never forget: Drug lords, mass murderers, a courageous old grandfather, and two young Americans brave enough to confront the greatest power on earth.

A seductive expatriate's tale, brimming with intrigue, politics, and humor. --Jake Halpern, author of Fame Junkies and commentator for NPR's All Things ConsideredChock full of inside info, cool information, and a vivid picture of both South American political life and American involvement therein. Segedy pulls no punches, with the truth or his story. It was a pleasure to read. I highly recommend it. Peter Walker, Vanguard Recording ArtistAbout the AuthorMost of his adult life, Michael Segedy has lived outside of the United States (Peru, Morocco, Israel, and Taiwan) writing and teaching high school literature and technology. He has published numerous academic articles about literature and writing, and in 1985, Gwendolyn Brooks, poet laureate of Illinois, presented him with Virginia English Bulletin's first place writing award. Cupiditas: Evil's Root is his third novel. His other novels are In Deep and Hampton Road. Michael and his family currently live in Lima, Peru, and with his family's support and encouragement he hopes soon to complete his fourth book.
