Doesn't even show all the ruins or the locations of the main ruins, only that there are some next to that city. Cusco map sucks. It's tiny and the labels make it confusing to follow. I found a better Cusco map in my guide book. Seriously, this looks like one of those free maps you can pick up at your hotel or travel bureau. It should cost no more than \$2. I feel REALLY ripped off. DO NOT buy this map. There are WAY better maps of Cusco and Peru out there. This is EXACTLY why sellers should post a picture of the actual map, instead of just the cover. 2 of 2 people found the following review helpful. Great Map with City Center By Art Great map. Gives you the city center which is what I wanted and surrounding areas 0 of 0 people found the following review helpful. One Star By Marietta Holt Too expensive for map

Folded, two-sided tourist map of Cusco (Cuzco), Peru. One side shows Cusco and surroundings, including the Sacred Valley, Apurimac Canyon and Ausangate. Reverse side shows Downtown and greater Cusco. Maps show roads, trails, rail lines, ruins, trekking/biking/horseback riding trails, campgrounds, trailheads, natural features, mountain and elevation points. Map includes text in both Spanish and English, on history, environment and tourist destinations.
