**Steven Vink : Daniel van der Meulin in Arabia Felix** before purchasing it in order to gage whether or not it would be worth my time, and all praised Daniel van der Meulin in Arabia Felix:

1 of 1 people found the following review helpful. History of Saudi ArabiaBy ikonostazExcellent book very informative about the period 1930ies concerning the life on the territory of not yet "Saudi Arabia". Very useful to any person studying the period. Especially interesting in geoplitics and particularly informative compared to today's situation and events.

In the 1930s and 1940s, Daniel van der Meulen travelled several times through the beautiful country of Yemen. About his travels and stays in the Middle East he wrote many books, articles and unpublished journals. This publication is mainly based on these writings. He was also a talented photographer and collector of photographs. Part of his collection is kept at the Royal Tropical Institute (KIT) in Amsterdam and is presented in this book. Text in English and

Arabic

About the Author Steven Vink is curator of the Historical Photo Collection of the Tropenmuseum.
