By David M Finch I always get these NatGeo maps whenever I'm going to a new area. They are regularly updated, and the topo is very accurate. The vinyl material is impervious to water and very durable, but the printing is clear and precise. These are excellent maps for field or vehicle. The NPS trails and campgrounds are indicated on the maps.

By cardgenius Highly detailed just like all the other Trails Illustrated maps out there. Like all maps, study it before actually having to use it. A map (and compass) is a must have for anyone going out into the wilderness.
