Wayne Bernhardson : DEL-Moon Handbooks Buenos Aires before purchasing it in order to gauge whether or not it would be worth my time, and all praised DEL-Moon Handbooks Buenos Aires:

1 of 1 people found the following review helpful. Moon is my guide!! By E. F. Porter Moon guide books are great, I like the way they put things together. And they also tell you about some of the off-beat places you might want to see. But the main thing is I like their format. 38 of 42 people found the following review helpful. The best of a small bunch. By King Lerch South American guidebooks aren't as plentiful as those from other parts of the world, so I often have to buy several to get complete information. This Buenos Aires edition from Moon Handbooks was surprising because it not only included some great information on the city, but had better information on surrounding areas like Montevideo than my other Uruguay book. Also included up-to-date hotel information that was simply missing from

the others.
