Eric Bjornstad, George Meyers : Desert Rock: Wall Street to the San Rafael Swell before purchasing it in order to gage whether or not it would be worth my time, and all praised Desert Rock: Wall Street to the San Rafael Swell:

2 of 2 people found the following review helpful. Superb JobBy A CustomerEric Bjornstad does a superb job documenting most of the routes in the Moab, Utah area. Although some mistakes will be found, which is to be expected in a compilation of this magnitude, the climber will find many known and unknown routes to challenge their skills. The book includes many popular areas like Wall Street as well as many unknown cliffs and spires. It's essential

gear for any climber contemplating a long term climbing trip to Moab... Another book, Rock Climbing Utah, offers a good overview to the area also.
