National Geographic Maps - Reference : Dinosaurs of North America, tubed (National Geographic Reference Map) before purchasing it in order to gage whether or not it would be worth my time, and all praised Dinosaurs of North America, tubed (National Geographic Reference Map):

Imagine North America with great inland seas and a fabulous array of dinosaurs ranging across its expanse. North America in the Age of Dinosaurs shows the continent as it was 74 million years ago. The map shows where dinosaurs roamed throughout the continent during the Mesozoic Era, with stunning artwork and descriptions of the diverse range

of dinosaurs that flourished for over 200 million years. Map is printed on premium quality paper stock, rolled, and packaged in a clear, hard plastic tube. Sheet Size = 22 x 31 Scale = 1:19,112,000

About the Author Founded in 1915 as the Cartographic Group, the first division of the National Geographic Society, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world. All proceeds from the sale of National Geographic maps go to support the Society's non-profit mission to increase global understanding and promote conservation of our planet through exploration, research, and education.
