**Gregory A Boyd J.D. : Family Maps of Jasper County, Mississippi** before purchasing it in order to gage whether or not it would be worth my time, and all praised Family Maps of Jasper County, Mississippi:

0 of 0 people found the following review helpful. Where did they live?By Roy DanielsLike all of Gregory A. Boyd's Family Maps, he provides a source for early land patents. One of the best features is the maps. One provides the current locations of roads. Another provides geographical information, location of lost communities, and location of cemeteries. A good source for researching family history.0 of 0 people found the following review helpful. Five StarsBy ShirleyGreat prices and fast shipping.0 of 0 people found the following review helpful. Five StarsBy elizabeth thorntonAlways good to have a ref. book on your family history!

282 pages with 68 total maps Locating original landowners in maps has never been an easy task-until now. This volume in the Family Maps series contains newly created maps of original landowners (patent maps) in what is now

Jasper County, Mississippi, gleaned from the indexes of the U.S. Bureau of Land Management. But it offers much more than that. For each township in the county, there are two additional maps accompanying the patent map: a road map and a map showing waterways, railroads, and both modern and many historical city-centers and cemeteries. Included are indexes to help you locate what you are looking for, whether you know a person's name, a last name, a place-name, or a cemetery. The combination of maps and indexes are designed to aid researchers of American history or genealogy to explore frontier neighborhoods, examine family migrations, locate hard-to-find cemeteries and towns, as well as locate land based on legal descriptions found in old documents or deeds. The patent-maps are essentially plat maps but instead of depicting owners for a particular year, these maps show original landowners, no matter when the transfer from the federal government was completed. Dates of patents typically begin near the time of statehood and run into the early 1900s. What's Mapped in this book (that you'll not likely find elsewhere) . . . 4882 Parcels of Land (with original landowner names and patent-dates labeled in the relevant map) 45 Cemeteries plus . . . Roads, and existing Rivers, Creeks, Streams, Railroads, and Small-towns (including some historical), etc. What YEARS are these maps for? Here are the counts for parcels of land mapped, by the decade in which the corresponding land patents were issued: Decade Parcel-count 1830s 65 1840s 1964 1850s 1070 1860s 601 1870s 65 1880s 169 1890s 701 1900s 221 1910s 19 1920s 4 What Cities and Towns are in Jasper County, Mississippi (and in this book)? Acme, Baxter, Bay Springs, Blue Ridge, Brevet (historical), Burns (historical), Claiborne (historical), Davisville (historical), Etchehoma (historical), Fellowship, Fouke, Garlandville, Goshen (historical), Gridley, Hamlet (historical), Heidelberg, Holt (historical), Jewells Hill (historical), Kelona, Lake Como, Louin, Markwald, McNeal, Montrose, Moss, Mulberry, New Fellowship, Oak Bowery (historical), Orange, Paulding, Penantly, Ras, Rose Hill, Stafford Springs, Stevens, Stringer, Success (historical), Tallahoma (historical), Turnerville, Verba, Vernon, Vossburg, Vruue (historical), Waldrup, Weems (historical)
