**Gregory A Boyd J.D. : Family Maps of Morgan County, Indiana** before purchasing it in order to gage whether or not it would be worth my time, and all praised Family Maps of Morgan County, Indiana:

1 of 1 people found the following review helpful. Excellent Resource for Genealogists and Family HistoriansBy W. R. BuckleyFor anyone interested in genealogy and family history whose ancestors settled in Morgan County, Indiana, this book provides valuable information. It lists settlers who obtained land patents--i.e., the first titled deed holders--for land in the various townships of Morgan County, Indiana. The book is well-organized and easy to use.

213 pages with 47 total maps Locating original landowners in maps has never been an easy task-until now. This volume in the Family Maps series contains newly created maps of original landowners (patent maps) in what is now Morgan County, Indiana, gleaned from the indexes of the U.S. Bureau of Land Management. But it offers much more than that. For each township in the county, there are two additional maps accompanying the patent map: a road map

and a map showing waterways, railroads, and both modern and many historical city-centers and cemeteries. Included are indexes to help you locate what you are looking for, whether you know a person's name, a last name, a place-name, or a cemetery. The combination of maps and indexes are designed to aid researchers of American history or genealogy to explore frontier neighborhoods, examine family migrations, locate hard-to-find cemeteries and towns, as well as locate land based on legal descriptions found in old documents or deeds. The patent-maps are essentially plat maps but instead of depicting owners for a particular year, these maps show original landowners, no matter when the transfer from the federal government was completed. Dates of patents typically begin near the time of statehood and run into the early 1900s. What's Mapped in this book (that you'll not likely find elsewhere) . . . 4139 Parcels of Land (with original landowner names and patent-dates labeled in the relevant map) 43 Cemeteries plus . . . Roads, and existing Rivers, Creeks, Streams, Railroads, and Small-towns (including some historical), etc. What YEARS are these maps for? Here are the counts for parcels of land mapped, by the decade in which the corresponding land patents were issued: Decade Parcel-count 1820s 737 1830s 2198 1840s 829 1850s 369 1870s 1 1880s 2 1920s 3 What Cities and Towns are in Morgan County, Indiana (and in this book)?
