**Gregory A Boyd J.D. : Family Maps of Searcy County, Arkansas** before purchasing it in order to gage whether or not it would be worth my time, and all praised Family Maps of Searcy County, Arkansas:

3 of 3 people found the following review helpful. Family Maps of Searcy County, ArkansasBy T. PoeI ordered this book as a gift for my mother-in-law, who was raised in Searcy County during the 1940's. At first thumb-through, I didn't quite get it. So I settled in and read how to use the maps and began searching for my mother-in-law's maiden name. I found quite a few maps for her family name. Just on a whim, I looked up my mother's maiden name. Low and behold, there was a map for my great-great-grandfather. We didn't even know he had ever lived in Searcy County. Of course, I had to buy a second one to keep. I'm currently buying other counties in this publisher's map series. Valuable for genealogy and just for the coolness factor to have found a lost bit of family history.2 of 2 people found the following review helpful. One of the best genealogy research tools I've used!By CharolettI've been blessed enough that our local genealogy library has most of Mr. Boyd's Family Map books and the leads I have got from them has been

tremendous. Especially in finding the maiden names of ancestors. You can easily look at these maps and see neighbors, relatives and much more. Truly a great series of books!

306 pages with 68 total maps Locating original landowners in maps has never been an easy task-until now. This volume in the Family Maps series contains newly created maps of original landowners (patent maps) in what is now Searcy County, Arkansas, gleaned from the indexes of the U.S. Bureau of Land Management. But it offers much more than that. For each township in the county, there are two additional maps accompanying the patent map: a road map and a map showing waterways, railroads, and both modern and many historical city-centers and cemeteries. Included are indexes to help you locate what you are looking for, whether you know a person's name, a last name, a place-name, or a cemetery. The combination of maps and indexes are designed to aid researchers of American history or genealogy to explore frontier neighborhoods, examine family migrations, locate hard-to-find cemeteries and towns, as well as locate land based on legal descriptions found in old documents or deeds. The patent-maps are essentially plat maps but instead of depicting owners for a particular year, these maps show original landowners, no matter when the transfer from the federal government was completed. Dates of patents typically begin near the time of statehood and run into the early 1900s. What's Mapped in this book (that you'll not likely find elsewhere) . . . 6213 Parcels of Land (with original landowner names and patent-dates labeled in the relevant map) 45 Cemeteries plus . . . Roads, and existing Rivers, Creeks, Streams, Railroads, and Small-towns (including some historical), etc. What YEARS are these maps for? Here are the counts for parcels of land mapped, by the decade in which the corresponding land patents were issued: Decade Parcel-count 1840s 26 1850s 333 1860s 213 1870s 319 1880s 657 1890s 1007 1900s 1714 1910s 1627 1920s 305 What Cities and Towns are in Searcy County, Arkansas (and in this book)? Baker, Baker Hollow, Barren Hollow, Bear Creek, Begley (historical), Blanco, Bohannon, Booster, Buroak, Campbell, Canaan, Clutes (historical), Cozahome, Dongola, Dry Creek (historical), Duff, Dugger (historical), Elberta, Eula, Evening Star, Fairview, Gilbert, Hall (historical), Harriet, Horn Mountain (historical), Imo, Jameson (historical), Kay, Landis, Lebanon (historical), Leigo (historical), Leslie, Lone Pine, Magic Springs, Marsena, Marshall, Martin Box, Maumee, Morning Star, Noahs, Oxley, Pindall, Point Peter, Push, Rock Springs, Rumley, Saint Joe, Shilo (historical), Silver Hill, Slicker (historical), Snowball, Thola, Tomahawk, Watts, Welcome Home, Wileys Cove, Witts Springs, Woolum, Zack, Zeb (historical)
