Backroads of FranceBy CoralOne could be alone travelling the backroads of France, experiencing all the wonders - yet sitting in ones own armchair.A very enjoyable book, and very well written..1 of 5 people found the following review helpful. Pedalling This BookBy Tony GubbaI recommend it. It has a nice verbal tang - but perhaps too much about cycling. Perhaps he should have gone by train or soemthing. I went by train and met an eastern european girl who had black hair. Also I wouldn't have done what he does with the flan.

Tom Vernon, fat man and food lover, cycles through France to experience at first hand the French, their countryside and their food and wine. The six episodes in this double cassette pack follow Vernon's progress all the way from northern London to southern France in the summer of 1979.
