**From DK :** "Financial Times" World Desk Reference before purchasing it in order to gauge whether or not it would be worth my time, and all praised "Financial Times" World Desk Reference:

This desk reference lists 20,000 of the world's most important places, 75,000 facts and statistics and a glossary of geographical terms. Each of the world's 193 nations is surveyed and mapped and there are profiles of overseas dependencies and territories.
