**Lorraine Joan Wise : Fingers Crossed Across Australia** before purchasing it in order to gage whether or not it would be worth my time, and all praised Fingers Crossed Across Australia:

When a diagnosis of breast cancer left Lorraine Wise with an uncertain future, she and her husband Mike decided to make the most of the challenge life had thrown them. After consulting a financial guru they decided that taking early retirement to join the ranks of the grey nomads would be a stretch, but not impossible. So they did what they never thought they would and gave up their home base, their roots and their security. Lorraine wanted to make the most of

whatever time she had left. Their bucket list wasn't long, but they decided to get on with it while they could. They became intrepid travellers, exploring many parts of our beautiful country. They walked through the most spectacular gorges, snorkelled the magnificent Ningaloo Reef, traversed Australia's infamous wilderness tracks, fossicked for gems, became avid bird watchers and went fishing. They took a magnificent boat ride through the Buccaneer Archipelago and experienced the amazing Horizontal Waterfall. While they did follow the tar sometimes, Lorraine and Mike often went bush to find breathtaking views, peace, relaxation and glorious sunrises and sunsets that lit up the sky. After eight wonderful years of living and loving life it is time to share their travels.
