Tim Slessor : First Overland: London-Singapore by Land Rover before purchasing it in order to gage whether or not it would be worth my time, and all praised First Overland: London-Singapore by Land Rover:

0 of 0 people found the following review helpful. A great read that will keep you engaged and reading onBy DonnaA great read that will keep you engaged and reading on. Loved the story; takes you back in time to a point where

everyone was prepared to have a go and the word "risk" wasn't automatically paired with the word "aversion", "management" or "mitigation". If you like travel and getting off the beaten track, this is the book for you. 1 of 1 people found the following review helpful. Fantastic automotive story. By Mathew Guest One of the best reads I have ever come across. A great travel story that had me making bonkers plans to do something similar late at night. Take the warning seriously, you will want a Land Rover after reading this oh and maybe a nice cup of tea. 0 of 0 people found the following review helpful. Makes you want to go overland. By Jason Lovato This book is a wonderful story and very well written. It is much about the adventure and not only about the trucks they used. It makes me wish I lived in a time where overlanding was a brand new idea (even though the adventure and danger is still there doing it).

Why not? After all, no-one had ever done it before. It would be one of the longest of all overland journeys-half-way round the world, from the English Channel to Singapore. They knew that several expeditions had already tried it. Some had got as far as the deserts of Persia; a few had even reached the plains of India. But no-one had managed to go on from there: over the jungle-clad mountains of Assam and across northern Burma to Thailand and Malaya. Over the last 3,000 miles it seemed there were just too many rivers and too few roads. But no-one really knew... In fact, their problems began much earlier than that. As mere undergraduates, they had no money, no cars, no nothing. But with a cool audacity, which was to become characteristic, they set to work-wheedling and cajoling. First, they coaxed the BBC to come up with some film for a possible TV series. Then they gently "persuaded" Rover to lend them two factory-fresh Land Rovers. A publisher was even sweet-talked into giving them an advance on a book. By the time they were ready to go, their sponsors (more than 80 of them) ranged from whiskey distillers to the makers of collapsible buckets. In late 1955, they set off. Seven months and 12,000 miles later, two very weary Land Rovers, escorted by police outriders, rolled into Singapore-to flash-bulbs and champagne. Now, sixty years on, their bestselling book, *First Overland*, is republished-with a foreword by Sir David Attenborough. After all, it was he who gave them that film.

'An altogether delightful book... written with humour and beguiling gusto.' --Times Literary Supplement; 'I think that this is the best travel book I have ever read.'--The Motor; 'Fifty years on, their journey and its telling have become both an epic and a classic.'--Sir David Attenborough
