Now retired and ready to go.By CathanneWe have lived in Florida a very long time but have seen so little of the rivers, lakes, forests, beaches, hiking trails, historic sights and back roads. This Atlas seems to be the right one to get us where we want to go. Only devices we will have are our basic cell phones and a hand held compass.0 of 0 people found the following review helpful. Great Maps!By Jules RuppVery happy with the quality and large size of this atlas. Has every state park listed as well as accurate waterways. We are kayakers and campers and have LOVED having this map!0 of 0 people found the following review helpful. Great MapBy RoboguyYes I have a standalone GPS, a GPS in my phone, a GPS in my watch, but their is something about paper maps that I still love. I also wanted something that I wont have to worry about battery life or software glitches. A map when I need it most.
