**Fiona Sunquist : Florida (Travellers' Wildlife Guides)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Florida (Travellers' Wildlife Guides):

0 of 0 people found the following review helpful. Five StarsBy Mark L TurkJust what the wife wanted!0 of 0 people found the following review helpful. well doneBy ellen fostergreat book with lots of information about the ecosystems in Florida and pictures of many of the animals in the area. Could have used more photos0 of 0 people found the following review helpful. Fine Florida animal introBy Shelley A MesirovaA present for my Mom who lives in Florida.

Doesn't feature every animal but enough to be interesting.

Travellers go to Florida for sun, sand, and surf, but increasingly also to explore Florida's incredible natural attractions: stunning subtropical scenery, wonderful hiking and bird-watching trails, exceptional fishing, boating, and canoeing, the wet wilderness of Everglades National Park, the continental US's only coral reefs, and glimpses of exotic wildlife. This book has all the information you need to find, identify, and learn about Florida's magnificent animal, plant, and sea life. - Identifying, location, and conservation information on the most frequently sighted animals. - Full-color illustrations of more than 600 of Florida's most common insects, fish, amphibians, reptiles, birds, mammals, and plants. - Information on the underwater animals most snorkelers and divers actually see. - Photos and information on Florida habitats and on the most common plants you will encounter. - Brief descriptions of the region's most frequently visited parks and reserves. Easy to carry, entertainingly written, beautifully illustrated--you will want to have this book as constant companion on your journey.

From the Back Cover Travellers to Florida go for sun, sand, surf, and visits to the state's world-famous theme parks, but increasingly leave the beach and amusement parks for part of their stay to explore Florida's incredible natural attractions: stunning subtropical scenery, wonderful hiking and birdwatching trails, exceptional fishing, boating, and canoeing, the wet wilderness of Everglades National Park, the continental USA's only coral reefs, and glimpses of exotic wildlife that includes alligators, sea turtles, dolphins, manatees, eagles and hawks, myriad waterbirds, otters, bears, and the Florida Panther. In this book is all the information you need to find, identify, and learn about Florida's magnificent animal, plant and sealife. The authors selected for color illustrations and photos some 620 of Florida's most common insects, fish, amphibians, reptiles, birds, mammals, and plants the species you are most likely to see. In one easy-to-carry, entertainingly written, beautifully illustrated book, you will have as constant companion on your journey.\* Identifying, location, and conservation information on the most frequently sighted animals.\* Information on the underwater animals most snorkelers and divers actually see.\* Photos and information on Florida habitats and on the most common plants you will encounter.\* Brief descriptions of the region's most frequently visited parks and reserves. FIONA SUNQUIST is a science and natural history writer. She has written many articles on wildlife and conservation, contributed chapters to several books and for more than 15 year has been a roving editor for International Wildlife Magazine. MEL SUNQUIST is a professor in the Department of Wildlife Ecology and Conservation at the University of Florida, Gainesville. He teaches wildlife ecology and researches the ecology and conservation of carnivorous mammals. Fiona and Mel have co-authored many scientific papers and book chapters, and have written two books on cats, Tiger Moon (1988) and Cats! The World's Wild Cats (2000). LES BELETSKY is a professional wildlife biologist and university zoology teacher. Prior to taking up writing wildlife guides, he conducted many years of field research into the ecology and behavior of birds, along the way writing many scientific reports and two books About the Author Mel Sunquist is a professor in the department of wildlife ecology and conservation at the University of Florida, Gainesville. He teaches wildlife ecology and researches the ecology and conservation of carnivorous mammals. Fiona Sunquist is a science and natural-history writer. She has written many articles on wildlife and conservation, contributed chapters to several books, and for more than 15 years has been a roving editor for International Wildlife magazine. Les Beletsky is a professional wildlife biologist and former university zoology teacher. Prior to taking up writing wildlife guides, he conducted many years of field research into the ecology and behavior of birds. He is the author of numerous books, including Costa Rica, Ecuador, and Peru in this series.
