The book is very user friendly, and the Parisian site information is very fun and informative. I used this book everyday, and tried to do as many things in the book as possible. What I love about this book is that it not only highlights the main touristy attractions in Paris, but the lesser known parks, such as Arenes de Lutece, and Jardin d'Acclimation, that are a lot less crowded and just as much fun. It also gives many suggestions on how to enjoy the main museums and monuments while toting the kids. Although some of my information (according to the 2nd edition) was a little off, such as which museums are free every Sunday, not just the 1st Sundays, (but that list can be found when you buy a 1,3,or 5 day museum pass), the majority (95%, I'd say) was right.I also really liked the fact that the times AND prices are listed, which is very rare in any guide book.You won't regret buying this one!!!8 of 9 people found the following review helpful. Not well researchedBy M. RichterOne exaple: After arriving at Versailles with my sleeping daughter in her stroller, we found out no strollers were allowed inside. There were 3 other parents with babies/strollers spending there time outside the palace as well, probably wishing they wouldn't have made the trek.Nothing was listed to this effect, it said it was a great place for kids. I'm sure it is, but that is a relevant piece of information for parents of small children.6 of 7 people found the following review helpful. Great ideas; check open days/time on lineBy PamelaJust finishing a month in Paris with my 7 year old and used this book daily as a starter for planning our activities. As with any travel book, double check the opening times

and days on-line for EVERY place you want to go. Even with the big museums, various exhibits are often closed on certain days even if the museum says they are open. (Ex: Louvre doesn't have enough staff to keep every gallery open every day. Their website tells you what's open when so you don't take your future Egyptologist to the Louvre when most of those rooms are closed.) If you are from the United States, also take with a grain of salt when a commercial venue (not historic monument or museum) is rated as 'great' in this book. As my older boys observed on a visit to Paris with me 13 years ago: Europe does "old" really well and the USA does "new" really well. You don't come to Paris to go to water parks and toy stores!
