First of all, it should be organized by arrondissement (neighborhood), because that's the reality of Paris. No sane family is going to bounce from the Bastille to the Bois du Boulogne on the same day. Instead the book is organized alphabetically, which is not helpful, and in fact problematic because the formal French names are not necessarily how things are identified. For example the "Centre National d'Art et de Culture Georges Pompidou" is referred to by Parisians as the "Beaubourg" - if you ask by the real name, they will probably stare at you blankly. It should be "Ok, today we're in the 6th, what else is around here?" Yes there is some value - citing food resources at each site is a great idea, and I didn't know there was a "trampoline park" in the Tuileries - and you can get a kid-friendly brochure at Sainte-Chapelle - but it is generally so overwritten and unedited (only the strangest kid will want to see "Proust's bedroom"). Unless you have unlimited time and the patience to sort through the 6 point type (and if they had edited it the type could have been bigger) don't waste your money. There are not even little maps showing the metro and cross streets at each site. Supposedly Fodor's are expert in travel books, and supposedly the writers live in Paris, so shame on them. I think Fodor's are just trading on their brand, and eroding it rapidly. 0 of 0 people found the following review helpful. This book is totally amazing. By rdbarb We have used this book in Paris with kids 7 9 years old. The only thing that would make it better is a map that showed where everything is. The book is organized in alphabetical order. Each activity has all the info you need: Metro stop, nearby kid-friendly food options, other nearby activities, price and hour information. It has fun ideas for all over the city -- and we discovered places we would not have known about otherwise. It has great ideas on making museums and monuments more interesting for kids. I'd been to Paris before, but never with kids, and this book is so good that people without kids might also enjoy using it. I have recommended it to anyone I know who is going -- it's

well worth the money. 0 of 0 people found the following review helpful. Loved this for our trip By 3rdtimecharm Loved this for our trip. Older kids read it before hand and were excited and more knowledgeable for the trip. Younger kid looked at pictures and liked it. I've loaned it out to adults who plan to travel to Paris as well and they liked it too!
