Excerpt. Reprinted by permission. All rights reserved. Honeymoon Heaven The path to a happy honeymoon? It's a lot like dating. Remember dating? You tried to figure out what you wanted. You sorted out possibilities. You listened to people who claimed to be experts. You investigated, went down a few wrong paths, maybe, and eventually, made the right choice -- partly based on what you'd learned, and, partly based on the pure instincts you possessed at the start. Planning a honeymoon really is like that. You scan the spectrum of honeymoon possibilities, ogle many brochures, chat up travel experts, listen to words of advice from family and friends, look within (yourself, and this guidebook) -- and arrive at the best decisions. Which leads us to the perfect way to begin making honeymoon plans. You two might consider making a date to share your dreams. Climb inside each other's souls over a glass of wine, or beside the fire one evening, and listen to the imagined description of each other's peak romantic experience. Relax; you don't need to try to reconstruct your visions in exact detail. But a fantasy summit is definitely a pleasant way to find out about general yearnings, and it inevitably helps jumpstart the planning process. In any case, the goal is to clarify, combine and satisfy both your styles -- and create a new one that belongs to both of you.
