have a basic, solid knowledge of Spanish already. This CD set is comprised of phrases, first said in English, then repeated in Spanish. The Spanish pronunciation is difficult to understand without the book in front of you- which is confusing to follow. This CD set does not teach grammar, pronouns, tenses, etc. It only teaches phrases- complete sentences. In order to benefit from this set, you will need to already understand some basic verbs and pronouns (gender and formalities) or you will become lost very quickly. This CD set is only good if you need to quickly memorize phrases for traveling- but remember, you will also need to UNDERSTAND what people say to you. It's better to learn the basic language skills than to memorize, "Where is the bus station?" and realize you have no idea what the response means! I recommend starting with a "Teach Yourself Spanish" course first. That will give you a good foundation. 9 of 9 people found the following review helpful. phrases are spoken too fast! By A Customer The audio with this book has useful phrases that would be great to learn before your trip, however the phrases are spoken too quickly for a beginner to learn. Also, the format is inconsistent. In the beginning they start off first giving you the word/phrases in English followed by Spanish. Then, without any warning, it changes to giving you the Spanish word first and then the English. This makes learning even more difficult. This is not a good program for beginners. Maybe if you have taken Spanish classes and know some basic Spanish vocabulary, grammar, and phonics then this would be a helpful review. If you are a beginner like me with one semester in college completed years ago this program is not for you.
