**Richard Barrutia, Armin Schwegler : Fonetica Y Fonologia Espanolas : Teoria Y Practica** before purchasing it in order to gage whether or not it would be worth my time, and all praised Fonetica Y Fonologia Espanolas : Teoria Y Practica:

0 of 0 people found the following review helpful. Great bookBy DJ Soul of AtenThe book arrived in very good condition, I have the answer key which helps when checking your answers. I purchased the answer key of the same

edition to prepare for an up coming class. The both can serve as a teaching tool in the future. Although the textbook is different for the class that I am taking the head start by completing the first three chapters of the book has to pay off. 0 of 0 people found the following review helpful. Awesome product because I wanted to refresh my phonetics style of writing. By SD\_CAI misplaced my similar phonetics book and I wanted to have this one because it's one of the original copies by Barrutia. The price was great because it was affordable and it's in great shape. I would recommend to have one like this one because it's always nice to have a copy of old school phonetics by Barrutia. 0 of 0 people found the following review helpful. Four Stars. By JGood buy and seller.

A user-friendly manual for correcting students' pronunciation. It provides an excellent introduction to Spanish phonological and orthographical systems, including dialectical variations in the Hispanic world. Noted for its clarity and extensive use of computer graphics, this edition addresses concerns raised by the ACTFL Proficiency movement. Features scores of exercises and drills.

Language Notes Text: Spanish From the Publisher A user-friendly manual for correcting students' pronunciation. It provides an excellent introduction to Spanish phonological and orthographical systems, including dialectical variations in the Hispanic world.
