Janak Jani : Footprint Chile (Footprint Chile Handbook) before purchasing it in order to gage whether or not it would be worth my time, and all praised Footprint Chile (Footprint Chile Handbook):

7 of 10 people found the following review helpful. Just like a "Frommer's" for Chile ...By Cheap-n-EasyThis is the detail "travel agenda and planning guide" you want to determine hotel, transportation and other location detail. It is very much similar to a Frommer's Guide.It is sorely missing color and story. Therefore it is boring to read. That's why I only gave it four stars. But Chile guides are not plentiful. This is designed to be more of a reference guide and it is good at that. Don't expect to get enough info on geography, history, politics and the people of Chile.The good news!! For the information missing in this guide, you should definitely get the "Insight Guide" "Chile Ester Island" (Discovery Channel). This book has the color and information to give a Chile novice all they need to know about Chile's geography, history, people and politics. I could not put it down until I read all the way through it.These two books are the absolut perfect combo for the first-time Chile traveller or Chile novice and really should be sold in a package. In tandem they cannot be beat.Get these two and you have the perfect travel guide package.0 of 0 people found the following review helpful. Bar none, the best guide to ChileBy fusionboyDefinitely the best guide to Chile. More accurate, enthusiastic, and useful than Rough Guides or Lonely (this bar closed 3 years ago) Planet. Janak also runs a darn nice hostel.

This revised and updated edition offers comprehensive recommendations and listings. Chile has lakes, forests, volcanoes, Mediterranean style countryside, vineyards, orchards, lively cities, peaceful beaches and deserts. This handbook includes coverage of the Chilean Pacific Islands including Easter Island and offers practical listings of all accommodation, restaurants, and everything else the visitor needs, whether travelling in a group or independently. A special feature on adventure sports from climbing volcanoes in the Lake District to mountain biking in the Parque Nacional Huerquehue, even sea kayaking and rafting is also included. A special feature on planning the trip and suggested itineraries is included plus critical listings of the best and most interesting places to stay, eat, drink and party. The guide also offers detailed accounts of off-the-beaten track destinations. A section on basic Spanish for visitors is included.

"While Wallpaper shies away from the standard handbook when packing our Vuitton, we are prepared to make an exception for the Footprint series when it comes to South America." Wallpaper
