National Geographic's Executive style wall map of France, Belgium and The Netherlands is beautifully rendered with

unparalleled detail using an antique inspired color palette. The stunning shaded relief is complemented by clearly defined international boundaries, national subdivisions, thousands of place names, national parks, swamps, glaciers, intermittent lakes, mountain passes, areas of sand and land below sea level. In addition, major infrastructure networks are displayed such as airports, highways and roads, oil fields and pipelines, high-speed railway lines, canals and ferry routes. Luxembourg and portions of the United Kingdom, Germany, Switzerland, Spain, and Italy are shown as well. The map is encapsulated in heavy-duty 1.6 mil laminate which makes the paper much more durable and resistant to the swelling and shrinking caused by changes in humidity. Laminated maps can be framed without the need for glass, so the frames can be much lighter and less expensive. Map Scale = 1:1,953,000 Sheet Size = 23" x 30"
