I am surprised how much I picked up from just a couple times. It is going to take time and practice but it does work! 0 of 0 people found the following review helpful. Good with Audio By Joy This workbook is good to use with the FIA audio program. When I bought it, I thought I could skip the audio and just do the workbook and watch the videos. Then I found out a lot of the workbook requires the audio and was saddened because I didn't want to spend anymore money. I found the audio online torrent for free so I was way happier, then I found out the audio is super helpful and a good component that is not to be missed. 0 of 0 people found the following review helpful.
