Sue Riches, Victoria Riches : Frigid Women (Eye Classics) before purchasing it in order to gage whether or not it would be worth my time, and all praised Frigid Women (Eye Classics):

0 of 0 people found the following review helpful. Frigid WomenBy HykerAmazing story of life on moving ice! Things you just never thought of before. At least I didn't and I am a hiker and backpacker. If you like adventure and the outdoors this is a great read. I could not put it down.Frigid Women (Eye Classics)1 of 2 people found the following review helpful. An author's viewBy sue richesI wrote this book, with my daughter. It is about a life changing

six week adventure, and we want to share our experiences with you, the reader. Imagine the most beautiful place on earth, an unspoilt wilderness, then experience the fear, the vulnerability, the isolation and an overwhelming feeling of insignificance - welcome to the North Pole. In a world of vividly contrasting blues and whites, of every moving ice, two miles above the ocean bed, priorities change. To have your daughter with you makes it an incredible experience. We both hope we will inspire other people to do something unexpected. I was the oldest woman on the expedition and had just recovered from breast cancer, if I can do it, you can. So please read *Frigid Women*, enjoy it and know that nothing can stop you achieving a long held dream. PS. Why *Frigid Women*? Well, it caught your attention, didn't it?

"Men like to conquer, fight, or subdue the Arctic, while we had a different attitude. We felt that we had to go along with what we were faced with. . . . We tried to have the Arctic on our side instead of confronting it."

"An uplifting story . . . and simply told." Daily Telegraph
