Island destinations By Joan This book is a comprehensive discussion of island destinations - many of which I knew nothing about before reading it. 0 of 2 people found the following review helpful. A Bit of a Boring Read By SGU_Mom I was a bit disappointed in this book. There is so much potential on this topic, and I didn't feel it was met. I was expecting a verbal travelogue, and instead felt as if I were reading encyclopedia entries. I'm tagging it reference instead of travel since it is less of a disappointment when thought of that way.
