before purchasing it in order to gage whether or not it would be worth my time, and all praised Frommer's Argentina (Frommer's Complete Guides):

reference books but we prefer Frommer's (they seem more personal). We travel twice a year independently and we wouldn't think about travelling without one. Now I have a kindle it is ever better as I am always looking for ways to lighten my load. 0 of 0 people found the following review helpful. I did not find the organization, information or quality ... By C. A. I did not find the organization, information or quality of use for this travel book. I own travel books from many different companies/authors and this is the first time in a while that I purchased a Frommer's. It will be some time before I purchase a Frommer's again. 0 of 0 people found the following review helpful. What other works would you compare this to? By Lauren Macheni was disappointed as it did not cover all of Argentina, mostly tourist areas, larger cities. But having been there before, I know more about the smaller places that are great for vacationers. If you are hitting the tourist areas, this book is great. If you are wanting great smaller towns and areas, choose another book.

About the Author Michael Luongo has written on Argentina for the New York Times, National Geographic Traveler, Bloomberg News, Out Traveler, and many other publications. He is also the author of Frommer's Buenos Aires. His debut novel, *The Voyeur*, was published by Alyson Books in 2007, and he has written several other travel books. He has visited more than 80 countries and all seven continents, but few places have stolen his heart like Argentina. Highlights include riding Juan Pern's coffin through the streets of Buenos Aires during his 2006 reburial, and wearing a dab of perfume from the last bottle of fragrance Evita used before her death to a dinner party. Charlie O'Malley is an Irishman who lives and works in Mendoza, Argentina. He has worked on several Frommer's guidebooks for countries all over South America and Central America. He edits his own magazine in Argentina called *Wine Republic*. Christie Pashby has written for Frommer's for a decade. She covers western Canada and the southern regions of Chile and Argentina. By the time she was 25, Christie had lived in Berlin, the Cote d'Azur, Chile, and Costa Rica, and studied in three Canadian provinces, earning degrees from McGill University and University of King's College. But the mountains were calling; along with her Argentine husband, she splits her time between homes in Canmore, Alberta, and Bariloche, Argentina, two of the world's finest alpine playgrounds. She is a freelance translator, journalist, and also runs a small guiding business in Patagonia. Her website is [www.patagonialiving.com](http://www.patagonialiving.com).
