**Eliot Greenspan : Frommer's Costa Rica 2009 (Frommer's Complete Guides)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Frommer's Costa Rica 2009 (Frommer's Complete Guides):

in San Jose on a Sunday and it was closed. The book misleads by saying that they are open. I do like the small tips that were very helpful. I was not happy that zip lining was not available if you don't make reservations. We did like going to the National Park Manuel Antonio and you for sure you need one of those guides to show you where all the animals are located. 12 of 12 people found the following review helpful. Not the best fit for my type of travel By aMeta4 Not enough budget recommendations. Lonely planet was more my speed. Frommer's would be a better fit for folks traveling with families, or for people who don't like to travel beyond the safety of the walled gardens. 0 of 0 people found the following review helpful.
